

# Disaster & Climate Advisory

Providing expertise to key stakeholders

Why is it Important?

- Safety of workforce in industry clusters & townships
- To avoid economic & social loss during disasters
- Lack of effective disaster & climate strategies

What we do?

- Business continuity
- Impact advisory
- Sustainable development advisory
- Climate action plans
- Humanitarian response advisory

How we add value?

- Insights from technical advisors & Industry experts
- Ability to convert strategies into actionable plans
- Developing impact focused strategies
