

# Humanitarian Innovation solutions

Innovative people-centric solutions

Why is it Important?

- To increase efficiency through tech integration
- Need for sustainable & innovative last-mile market solutions
- To reduce losses by mainstreaming climate adaptive practices

What we do?

- Technology for disaster risk mitigation and climate resilience
- Fostering grassroots innovation by creating a marketplace
- Hazard impact forecasting through Artificial Intelligence & GIS

How we add value?

- In-house innovation lab for incubating products
- Capacity to validate and test out innovations on-ground
- Ability to foster collaborations & partnerships
