

# Knowledge & Capacity Building

Bridging the gap between theory & practice

Why is it Important?

- Increased need for mitigation support
- Need for up-skilling of stakeholders
- Need for large scale awareness & sensitisation

What we do?

- Capacity building of stakeholders
- Learning modules development (child and adult)
- Awareness campaigns for communities
- Training needs assessment

How we add value?

- Expertise in content creation & knowledge dissemination
- Access to tools and systems of creative modules
- Extensive repository of information and data
